

Cemetery Management Software Release Log

Summary	Description	Build #
Latest Maintenance Release is July, 2021 4.5.5.237	You can check your current Build # by going to Help About Pontem Cemetery Manager. After noting your current Build #, find it in the Build # column. All upgrades above your noted Build # are new and will apply to your program when you upgrade your software.	
General Enhancement Manage Graves Tools	New Tools added for GIS customer needing to reconcile incorrectly addressed grave records with GIS Mapped records	4.5.5.237
General Enhancement Manage Graves Tools	Mass Edit Tool with one cemetery now loads the Level 2 Segment drop down list upon initial opening of the tool. This is fixed in Advanced Search as well.	4.5.5.237
General Enhancement Log In	When launching the application, if the Firebird Services is not running, and error, in red, is displayed on the Log In dialog rather than a pop up dialog. This helps eliminate the issue with the dialog stacking/hiding.	4.5.5.236
General Enhancement Log In	When logged in as PontemAdmin, connection and version information is displayed in the overview workspace. This User login can be used for managing Configuration and User Profiles as well.	4.5.5.236
Enhancement Manage Graves Quick and Advanced Search	Enhancement: If Manage Graves Search Criteria has been applied to the Workspace List view, a message is displayed, in blue, below the Quick Search Panel button.	4.5.5.236
Enhancement Manage Occupants Quick and Advanced Search	Enhancement: If Manage Occupants Search Criteria has been applied to the Workspace List view, a message is displayed, in blue, below the Quick Search Panel button.	4.5.5.237
Enhancement Manage Graves Advanced Search	Enhancement: Added new option on the General Tab for displaying Graves without Geo ID (if you are licensed for GIS Mapping)	4.5.5.236
Enhancement Manage Occupants Genealogy View	Enhancement: Multiple Memorial URLs now available for all Occupant records, on the Genealogy page. For customers with OBS, these do get published to your Online data for the public.	4.5.5.236
Enhancement Reports	Enhancement: Grave Address Breakdown report now has the option to Print to CSV	4.5.5.235
Enhancement Reports	Enhancement: Added new Report for Occupants Interested Parties List	4.5.5.235
Enhancement Reports	Enhancement: Reports By Owner to allow an owner list of up to 100 characters	4.5.5.225
Enhancement Menu Maintenance	Enhancement: Changes to how the Back Up, Restore, and Database Optimizomation work to avoid Windows API issue causing it to appear as Not Responding	4.5.5.205
General Enhancement File Exit	Enhancement to to Exit function to allow the application to resolves any database disconnect issues and prevent it from hanging.	4.5.5.202
General Enhancement Cemetery Setup	Enhancement: You cannot set an Address Label to blank if any grave records have a value assigned to it	4.5.5.202
Security Enhancements PontemAdmin User	Enhancement: PontemAdmin User added along with an Application Information section on the Overview Primary Task. Use login for reviewing the version and status of your Applications and Services and checking for Application Updates	4.5.5.202
Security Enhancements Database Optimization	Enhancement: Database Updates and Optimization Wizard will require all users to be logged out and will prevent new database logins until the optimization (back up and restore) is completed	4.5.5.202
General Enhancement Manage Graves	Correction: Manage Graves Status combo box has been fixed; the text was clipping when editing a grave record	4.5.5.201
General Enhancement ESRI Mapping	Correction: When deleting a grave that is connected to the ESRI mapping, the user is warned that deleting a grave will cause break the integration linking	4.5.5.198
General Enhancement Preferences	Correction: When running on a laptop with a high resolution monitor, the preferences form will now display correctly when switching between views	4.5.5.197
Primary Task Manage Graves Fix name labels	Correction: Owner names and Occupant names in the MGW header can stretch into the 'Status' and 'Location' if the names are long the form was sized to minimum width	4.5.5.195
General Enhancement Resizing Field Length	Enhancement: Dynamically resize the grave addressing in MGW Mass Data Entry form for a better view and look to the program	4.5.5.192
General Enhancement Resizing Field Length	Enhancement: Dynamically resize the grave address in MGW Mass Edit form for a better view and look to the program	4.5.5.192
General Enhancement Resizing Field Length	Enhancement Dynamically resize the grave address in MOW new occupant form for a better view and look to the program	4.5.5.192
Manage Occupants Tools: Change location	Enhancement: Tools - Dynamically resize the Change Location Tool to allow for more room	4.5.5.189
All Primary Tasks Workspace font size increased	Enhancement: Workspace Headers font has been increased from a font size of 8 to 10 for better viewing	4.5.5.185
All Primary Tasks Alert Note	Enhancement: Alert Note link: 'click here to view alert notes' has been moved from the left side of the workspace to the right side of the workspace	4.5.5.185

Manage Graves Tools - Manage Grave Statuses	Enhancement: Tools - Manage Grave Statuses: In the List view we now display a column with the color's name	4.5.5.177
General Enhancement New Logo	Enhancement: Added a new logo and fixed positioning issues on multiple workspaces	4.5.5.173
General Enhancement Deed Preferences	Enhancement: Auto Increment Deed Numbers: Warning message added to prevent already used deed numbers that are assigned to a grave.	4.5.5.171
Manage Graves Deed Number	Correction: Auto increment deed number button now showing when editing a deed	4.5.5.171
Manage Graves Traversal Fix	Correction: Owner row in Manage Graves can clear when adding a new owner, after traversing to a owner record and returning to the Manage Graves screen	4.5.5.168
Manage Address Book Traversal Fix	Correction: After adding an alternate contact, traversing to the alternate contact to edit and return to the original record - resolved Access Violation when adding additional alternate contacts.	4.5.5.168
Manage Graves Filtering	Correction: When no cemeteries are selected the checkbox to Show Result in Map is reset to unchecked.	4.5.5.165
General Enhancement Create a Support Request	Enhancement: Create Support Request option added to Help menu; no longer required to navigate off your current window to open the Overview	4.5.5.162
General Enhancement Create a Support Request	Enhancement: Create Support Request form has been improved to allow you to provide details for the Pontem Support tech to prepare the fastest possible reply	4.5.5.162
General Enhancement User Defined Fields	Enhancement: Preventing the change of a UDF description when users are editing a record. User must have edit_prefs rights as well - if they do not have rights, the buttons will not show.	4.5.5.162
Manage Occupants UDF's Required/Desired	Correction: Required/Desired warning is working for User Defined Date fields.	4.5.5.161
Manage Graves New Grave Report	Enhancement: Added Report: Grave address breakdown report will page break for each cemetery.	4.5.5.156
Manage Occupants Report Fix	Enhancement: Occupant Reports: Increased the speed when filtering for a large occupant list.	4.5.5.155
Manage Graves Report Fix	Enhancement: Grave Reports: Increased the speed when filtering for a large grave list.	4.5.5.154
Manage Graves Adding Owners	Correction: Fixed issue with adding additional owners on a grave.	4.5.5.152
Manage Occupants Filter Feature	Enhancement: New for Advanced Search: The ability to search for BLANK Values: Date of Burial, Date of Death, Date of Birth Dated of Service and Internment Number	4.5.5.152
Manage Graves Traversal Fix	Correction: Fixed Access Violation when using the change location tool in MOW after doing traversal from MGW.	4.5.5.144
Manage Graves New Grave Report	Enhancement: Added Report: Unique Grave Level By Cemetery: The ability to get a report list of all the unique grave level names and cemetery names.	4.5.5.141
Cemetery Setup ESRI Mapping	Correction: Fixed adding map and layers from scratch. Editing existing layers and tested with Images present and not present on the Cemetery Setup Images/Documents tab.	4.5.5.140
Cemetery Setup ESRI Mapping	Correction: ESRI setup - Immediately after starting Edit mode it will no longer crash. Displaying map should show all selected layers, even if mxd has those layers set to invisible.	4.5.5.132
Cemetery Setup ESRI Mapping	Enhancement: New Enhanced ESRI Integration and Sync tools for Pontem Technician have been enhanced	4.5.5.131
Manage Graves ESRI Mapping	Correction: Deleting a grave followed by adding the same grave with same Mapping ID will no longer get the error "says already exists"	4.5.5.126
Manage Graves Advance Filtering	Correction: Fixed How the first page was loading, and a difference in sorting between the initial load of the page and subsequent pages.	4.5.5.125
Manage Occupants Deleting Occupants	Correction: Fixed when deleting an occupant, the grave is updated to list the names of all occupants and was exceeding a variable in the proc for the list of names.	4.5.5.123
Manage Occupants Genealogy	Correction: Fixed Tabbing sequence when in the Genealogy layout. Tabbing was skipping Paternal Grandmother and Paternal Grandfather.	4.5.5.119
Manage Graves New Occupant	Correction: Fixed Tabbing sequence when in the New Occupant layout. Tabbing was skipping the Funeral Home.	4.5.5.119
Manage Address Book Traversal issue	Correction: Fixed "Invalid Class Typecast" error in Manage Address Book traversal to Occupant Interested Party.	4.5.5.116
Manage Address Book Occupant interested party	Enhancement: Renamed "Interested Party" to "Occupant Interested Party". The new feature separates and lists multiple occupants in the same grave.	4.5.5.116
Manage Occupants Funeral Home	Enhancement: Added Inactive Funeral Home names to the bottom of the drop-down menu list when editing an occupant record or performing an advanced search.	4.5.5.105
Check For Updates	The RTU Service program update used to require a manual process dependent on our Support staff. The CM Upgrades now looks for the RTU registry entry and will upgrade this RTU Service program along with the CM.exe if needed.	4.5.5.93
Manage Graves Deed Information View	Correction: Fixed an issue found when editing or adding a grave/property record, and assigning an existing deed number. Some of deed details from the existing deed were not being displayed correctly; some of the fields remained blank.	4.5.5.62

Manage Occupants Advanced Search Filter	Correction: Fixed issue introduced after editing the title/label for a User Defined Date field, the new value was not reflected in the Advanced Search filter.	4.5.5.62
Reports Occupants List	Correction: Fixed error resulting from running an Occupants List report filtered by a range of names.	4.5.5.61
Manage Occupants List View	Correction: Fixed error resulting from filtering the Manage Occupants list view through the quick search and then selecting the Name column to sort the list by Name in descending order.	4.5.5.60
Manage Occupants Date of Service General User Defined Fields (UDF's)	Correction: For User Defined Fields set up as a lookup option (drop-down menu pick list) and for the Date of Service field in Manage Occupants, a correction was made to allow the fields to be saved as blanks. Incorrect data can now be edited either removing or adding a new value.	4.5.5.50
Reports Grave List	Correction: Fixed an issue where assigned Interment #s were not pulling into the report.	4.5.5.33
Manage Graves Partner Integration - Osiris	New Feature: Added initial integration with Osiris Software, whereby an owner name and address and propertyID integrate with a Sales Contract in Osiris	4.5.5.x
Manage Address Book & Manage Occupants New Field	New Feature: Added AKA feature for recording, searching, and reporting "Also Known As" (alias) names related to individuals.	4.5.5.x
Reports Occupant Detail Report	Correction: Fixed the report so that UDF #8 correctly displays when it has been customized for specific needs.	4.5.4.87
Manage Graves Add New Grave Record	Correction: Users often perform a property search to determine if a record exists and when getting no results immediately click on the "New Grave Record" button. A correction was made when saving the record to stay on the same record when the user selected "Stay on Current Record" on the prompt dialog	4.5.4.85
General Program Window	Enhancement: Added the ability to resize the program window as well as a new preference setting, allowing the last window size to be remembered when launching the program again.	4.5.4.84
Manage Occupants Funeral Homes	Enhancement: Inactive funeral homes now remain visible on List View and in Detail View for the records to which they are assigned.	4.5.4.82
General Software License Agreement	Enhancement: Updated to include license to install software on a Cloud Server. License Agreement can be accessed from: the Windows Start Menu All Programs Pontem Cemetery Management 4.5	4.5.4.72
Manage Occupants Tools	Correction: A change in webCemeteries was conflicting with the Change Location Tool, preventing the process from completing. This has been resolved.	4.5.4.70
Manage Occupants General Page	Correction: Corrected auto-increment of interment numbers being reset resulting in duplicate numbers.	4.5.4.69
General webCemeteries.com sync	Correction: Fixed issue resulting in duplicate occupants being updated to webCemeteries.	4.5.4.68
Reports Graves (GIS Users Only)	New Report: A new report has been added showing property ID's, owner and occupant names of property records in the database but not found in GIS map.	4.5.4.66
Manage Graves Add New Occupant	Correction: Corrected data issue caused by adding occupants to a grave and canceling before saving, followed by immediately editing same grave record with a new Occupant added.	4.5.4.65
Manage Occupants Reports	New Feature: Added an Interment Order providing important information for work crews, and/or other staff involved with work related to a burial.	4.5.4.63
Manage Occupants Tools	Enhancement: Change Location Tool - Improved clarity of confirmation message related to Changing Location of an Occupant.	4.5.4.62
Manage Address Book Tools	Correction: Manage roles tool was limited to 15 roles, this limitation has been removed.	4.5.4.60
General UI	Refinements & Enhancements: Made various changes to refine or correct issues with the User Interface	various
General Screen Resolution	Enhancement--Made adjustments to the size of the program window for best viewing option based on size and resolution of PC monitor. Recommended minimum screen resolution is now 1366x768.	4.5.4.59
Manage Graves Document / Imaging	Correction: Fixed an issue where associated image files were being removed from the grave record if the record was edited with a blank file name and caption field.	4.5.4.58
Manage Graves Add New Occupant	Correction: Fixed the Date of Service field not copying the entire Date of Burial field date, resulting in an error upon save.	4.5.4.57
Manage Occupants Notes	Enhancement--Added new system note category titled "Graveside Setup". When this is used for an Occupant record note, the content of the note will automatically print on the Interment Report.	4.5.4.55
Manage Occupants Roles	Enhancement: Added a new system role for Authorization to be used for Interested Parties. If an Interested Party is assigned this Role, their name and contact information will automatically print on the Interment Order report.	4.5.4.55
Manage Graves Standard Mapping	Correction: Show on map option will only allow selection of maps for the currently selected cemetery. If multiple cemeteries are selected, show on map is now disabled.	4.5.4.55
Manage Graves Results List	Enhancement: Added the ability to maintain the filtered list of results or return to complete list of records after making edits which would cause a record to be no longer within the filtered list.	4.5.4.53
Manage Graves List View	Correction: Fixed Manage Graves that caused Occupants to be removed from the grave Detail view after navigating and editing between records with occupants and records without occupants. A warning on login has been added to detect this problem so that it can be corrected if found.	4.5.4.51
Manage Graves Esri® Mapping	Correction: Applied fix to ESRI® map to show burial date captions.	4.5.4.51
General Reports	New Feature: A new Export for the State of Texas Department of Banking Report has been created as required for Perpetual Care Cemeteries having been issued a Certificate of Authority by the Texas Dept. of Banking. A user in Pontem must have the cm_permits_bank_export rights for the export menu item to show.	4.5.4.50

Manage Graves Deeds	Correction: Changing the deed number on a grave was not always removing the old deed number from the contact. Any old deed numbers on a contact will be removed when updating to 4.5.4	4.5.4.49
Manage Occupants List View	Release Log: Enhancement: Added new List View column in Manage Occupants for WebCem ID numbers.	4.5.4.44
Manage Occupants General Page	Enhancement: Increased field length of Birth Date and Cause of Death field	4.5.4.40
Manage Standard Mapping	Enhancement: Adjusted zoom levels and added mouse wheel support, improving the user experience.	4.5.4.38
Manage Graves Deeds	Enhancement: Auto increment deeds: Auto increment deeds has been reworked to apply the deed number when saving rather than showing a deed number first. This prevents accidental skipping of deed numbers.	4.5.4.38
Manage Graves Standard Mapping	Enhancement: Adjusted zoom levels improving the user experience.	4.5.4.38
Edit Preferences Security User Rights	Enhancement: Added specific User Rights for View, Add, Edit, and Delete for each workspace.	4.5.4.35
Manage Occupants Reports	Refinement: Added date and time of service to Occupant Detail Report.	4.5.4.35
Edit Menu Styles	New Feature: Added new menu item allowing the selection of Display Styles.	4.5.4.34
General Enhancement	Correction: Corrected a problem slowing down the SAVE in Manage Graves on large data bases with thousands of owners in the combo boxes.	4.5.4.29
Manage Graves Tools Mass Data Entry	Refinement: May now alter any one grave segment for the range, and may also use a letter (a-z) for starting or ending value.	4.5.4.25
Edit Preferences Mass Edit Tool	Correction: Mass Edit Tool will no longer allow edits to graves in a cemetery that has the edit feature turned off.	4.5.4.25
Manage Address Book Emergency Contacts	Enhancement: Enabled traversal from Emergency Contacts view.	4.5.3.24
General: Software Installation	Correction: New users can now be created when using the "Create a new database" wizard.	4.5.4.19
General Internal Settings	Refinement: Adjusted where name parsing files are stored to match windows best practices and recommendations.	4.5.4.12
Edit Preferences Reports Defaults	Enhancement: New preferences added for Print Preview features such as default zoom level, thumbnails, outline, and multi-page viewing.	4.5.4.12
General Screen Resolution	Enhancement: Application will now default to wide screen monitor settings, up to 1920x1080. If screen resolution is 1024x768 or less, application will maximize to entire screen.	4.5.4.9
Advanced Search All Views	Enhancement: All lists have a new expand button. When clicked, the list will open in a new window so more items can be selected. The new window can be resized.	4.5.4.9
Manage Occupants General Page	Enhancement: Place of service, date of service, and time of service fields were added to manage occupants workspace and are also on the new occupant and assign as occupant dialogs. Date of service is searchable via advanced filter on the manage occupants workspace, and is also available as an option on the list view on the manage occupants workspace.	4.5.4.9
Manage Graves Tools - Mass Data Entry	Enhancement: This tool has been enhanced allowing the use of single alpha values in addition to numeric.	4.5.4.7
Manage Occupants Tools - Manage Funeral Homes	Enhancement: Added active/inactive switch to Funeral Home dialog. If a Funeral Home is set to inactive, it will not show up in list boxes or advanced search dialogs.	4.5.4.7
Manage Graves Deeds	Enhancement: Added drop down selection on Print Deed Button allowing the selection of Deed Form to Print.	4.5.3.5
General Advanced Search	Refinement: Added a progress dialog to Advance Search dialog.	4.5.4.2
General Manage Notes Categories	Enhancement: Manage Note Category Tool has been enlarged	4.5.4.1
Manage Graves General Page	Enhancement: Columns for Manage Owners, Occupants, and Reserved grids can be sorted by clicking on column header.	4.5.4.1
Manage Address Book Interested Parties Grid	Correction: Fixed issue where an Occupant name didn't display if there was no first name.	4.5.2.107
Preferences Graves/Deeds	Correction: If unchecking "Default Manage Grave" search to "Primary Cemetery," the system was not correctly saving the preference setting.	4.5.2.106
Manage Graves Assign as Occupant	Correction: Corrected "Range Index out of Range" error resulting from clicking "Assign as Occupant" on the owner grid after clicking in the Occupant grid.	4.5.2.105
Reports General	Enhancement: When a report is started, a new progress dialog is displayed while the count of records is determined. This prevents the application from looking "hung" while it waits on the database.	4.5.2.105
General User Interface	Correction: On some video cards the "Alert" and "Secure" icons on the notes grid header were not being displayed correctly. This has been corrected.	4.5.2.104
Manage Occupants Interested Parties	Correction: If an occupant had an existing interested party and you attempted to add or remove the relation to owner, it was not saving. This has been fixed.	4.5.2.102

Preferences User-Required Fields	Correction: Fixed warning/error messages when a user-defined field was set as required or desired.	4.5.2.102
Manage Graves Esri® Mapping	Correction: Corrected error where Advanced Search filter would show a warning "No Mapped Plot(s) for GIS" when data was in fact displayed.	4.5.2.101
Manage Graves Esri® Mapping	Correction: Corrected error where Advanced Search filter would show a warning "No Mapped Plot(s) for GIS" when data was in fact displayed	4.5.2.101
Manage Graves Esri® Mapping	Correction: Corrected error on mass edit tool from ESRI® map so that all changes are now correctly reflected on the map.	4.5.2.100
Manage Address Book Advanced Filter	Correction: Corrected issue where "Saved Filter" didn't work with certain selected criteria.	4.5.2.95
Manage Graves Image/Document Management	Enhancement: Added new title column to the grid allowing users to add an additional notation to an image or document. The option to customize the grid columns via a drop-down from the title bar has also been added as well as a preference setting related to automating the file name.	4.5.2.93 4.5.2.99
General Occupants	Correction: A issue was found and corrected that may have caused occupant records to be copied to another grave. The schema update for this release will test for this automatically, and will display a dialog to contact Pontem Support if the error is detected. If the new dialog does not show after logging into the database then there are no duplicated occupants.	4.5.2.92
Manage Graves/Address Book Assign as Occupant Tool	Correction: When using the "Assign as Occupant" tool from the "Manage Graves" view, a correction was made to include the suffix on the new Occupant record.	4.5.2.86
Manage Occupants General Page	Correction: Corrected tab order on data entry form.	4.5.2.84
Preferences User-Required Fields	Correction: Labels for User-Defined Fields (UDFs) now correctly reflect changes made in UDF tool.	4.5.2.80
Manage Graves Advanced Search Filter	Correction: Fixed SQL error when searching for a service item and displaying the results on a map.	4.5.2.78
General Reports	Enhancement: Added ability to email reports and forms from the "Print Preview" screen using internet-based services such as Gmail, Hotmail, Yahoo, etc.	4.5.2.68
Manage Graves Data Entry	Correction: If a grave was added then immediately edited, it was possible, in rare instances, to have the interface show a different record after saving. This has been corrected and the interface will remain on the same record after editing.	4.5.2.62
Manage Graves Standard Mapping	Correction: When printing a map from the Locate View the pin image is now retaining the correct location.	4.5.2.58
Manage Graves List View	Correction: Made correction to refresh List View after making a change to "Grave Type."	4.5.2.58
General Online Help	Enhancement: Overview Primary Task link to "Online Training & Support" and the "Topic Search" menu have been updated and will open the default web browser to the website http://support.pontem.com/hc/en-us , the new location of Pontem Cemetery Software knowledge base.	4.5.2.56
Manage Graves Quick Search	Enhancement: Added a drop-down box allowing the choice of owner, occupant or reserved name for a search.	4.5.2.54
Manage Address Book General Page	Refinement: In compliance with recommended consumer privacy best practices, the Social Security Number field has been removed.	4.5.2.52
Manage Graves GIS Mapping	Refinement: Improved capability of printing GIS Map, including option of portrait or landscape.	4.5.2.47
Preferences Esri® Mapping	Enhancement: Added support for Esri® License Version 10.2 as a preference setting.	4.5.2.46
Manage Occupants Tools Tab	Enhancement: Added new tool to define "Cause of Death" for a drop-down list. Cause of death in the occupant record can now be typed in, or selected from a drop-down list.	4.5.2.44
General User Interface	New Feature: A new option has been added to the "Edit Menu" allowing a user to adjust the zoom level of the software resulting in larger fonts.	4.5.2.42
Manage Occupants Genealogy View	Enhancement: Added a grid proving ability for use to add URL (web addresses) to reference web-based genealogical information related to the decedent.	4.5.2.41
Manage Graves Esri® Mapping	Enhancement: There is a new option setting in Esri® preferences which will zoom to the grave space when doing a locate.	4.5.2.41
General User Interface	Enhancement: Various Views and Advanced Searches - Grave Address: Enhancement: Level 2 of the Grave Address (typically Section, Division or Block) has been changed to present a drop-down list of existing values making data entry more consistent and searches easier to find the Level 2 value.	4.5.2.40
Preferences Security	Enhancement: When logged in as Administrator, a new report (print button) has been added, listing user names and their respective permission group. This report is not available from the normal Reports menu.	4.5.2.4
General Image/Document Management	Enhancement: A new preference has been added to "Images" page to allow images to default to either "Best Fit" or "Full Size."	4.5.2.39
Manage Graves Esri® Mapping	Correction: After locating graves on map using "Advanced Search" the Edit button on the Esri® tool bar is now active.	4.5.2.37
Preferences User-Required Fields	Enhancement: Added a confirmation dialog to the "Restore Defaults" button to indicate the reset is for the selected workspace only.	4.5.2.30
Manage Graves General View	Enhancement: Added a new field for the "Square Feet of a Grave Record." This data is also included on the "Grave Detail Report."	4.5.2.30
Manage Graves Tools Status Types	Enhancement: Added new option for "Status Type" to validate graves using that status, so that the grave MUST have or CAN NOT have an owner.	4.5.2.30

Manage Graves Purchase Plans	Correction: Editing a "Purchase Plans/Purchase Price" is now adjusting when editing a record.	4.5.2.27
Manage Graves General Page Occupant Grid	Refinement: Made speed improvements when displaying the occupant grid to accommodate graves with thousands of occupants as needed for scattering gardens and ossuaries.	4.5.2.26
Preferences User-Required Fields	Enhancement: "Location Note" field has been added to user-required fields for the "Manage Occupant" Workspace. If location note is set to automatically increment, it cannot be used as a required field.	4.5.2.24
Manage Graves Advanced Search Filter	Enhancement: Made various adjustments to user interface to better align controls and use available space.	4.5.2.23
Reports Grave Location	Enhancement: Grave address labels now accurately show when a segment is intentionally left blank.	4.5.2.14
Preferences User-Required Fields	Enhancement: Added "Skip Fields With No Entry Rule" option. When this option is checked the Tab key will stop only on "Required" and "Desired" fields.	4.5.2.14
Manage Graves, Address Book, Occupants Notes	New Feature: This feature provides the ability to manage multiple notes, viewed in a grid. Notes can be categorized (user-defined), have "alerts" set advising the user this record needs special attention, and provides a date to be used as an expiration of the alert or general management.	4.5.2.1
Manage Graves Esri® Mapping	Correction: Shift-click on a Esri® map will now deselect a selected grave, as well as select an unselected grave.	4.5.1.131
Manage Address Book Roles	Enhancement: A new system role for "Emergency Contacts" has been applied to appropriate address book records. "Manage Address Book" can now be searched for emergency contacts.	4.5.1.130
Manage Graves New Owner Popup Form	Correction: When entering a new owner on the fly in "Manage Graves", children and/or siblings entered in the Genealogy view, are now being saved correctly.	4.5.1.129
Reports Print Preview Email	Enhancement: Email on "Reports and Forms Print Preview" now supports Internet-based services such as Gmail, Hot Mail and Yahoo.	4.5.1.127
Manage Graves New Occupant Popup Form	Correction: Corrected error received when Open/Close costs has a value of 4 digits or more (i.e., \$120.50 or \$1,200.00).	4.5.1.126
Manage Graves Warning for Existing Deed	Correction: Fixed deed number warning message which displays if no deed number is entered.	4.5.1.125
Manage Graves Standard Mapping	Correction: When multiple maps are associated with one cemetery, a correction was made to save the last map selected from the map drop-down.	4.5.1.124
Online Burial Search	New Feature: A grave location can now be located on a map for users with the Standard Mapping Feature.	OBS
Manage Graves Care Plan/Memorial Information	Enhancement: If the purchase plan on a grave is changed, the associated price will update to the plans default defined price. A warning message will display to alert the user asking you want to update the amount or not.	4.5.1.118
Manage Graves Tools Tab Mass Data Entry	Enhancement: Added "#" button to the deed number in the Mass Data Entry (MDE) tool which will increment the next deed number and use that deed number for all graves that are created when clicking "create" button.	4.5.1.117
General Security	Security improvement: When applying database updates, will now use log in name of UPGRADE rather than SYSDBA. Password will be sent out by Pontem support along with the upgrade notificatio (changed in .202)	4.5.1.116
Manage Graves View Map	Correction: GIS Correction: GIS now draws to full size of the window when in docked mode.	4.5.1.112
Manage Graves General Page	Enhancement: Speed improvement made when going to Detail View for graves with 30 or more occupants.	4.5.1.111
Manage Graves: Owner Drop-down List	Enhancement: Made improvements resulting in faster display of data. Filtering for first four characters rather than three.	4.5.1.110
Manage Graves Image/Document Management	Refinement: Full screen icon now displays image in Windows default viewer. Added "Edit" button allowing the ability to edit image with Windows default editor.	4.5.1.110
Manage Graves General Page	Correction: Owner Drop-down Box: Enhancements made to display unlimited matching names in drop-down when either five characters entered or typing a comma and at least one letter of the first name.	4.5.1.110
General User Interface	Correction: Minor user interface issues were address for Windows 7 and Windows 8.	4.5.1.110
Reports Filter	Correction: Saving a filter on reports filter dialog now maintains the sort order setting.	4.5.1.109
Manage Graves General Page	Correction: Corrected error when adding multiple occupants after using assigning as owner button.	4.5.1.108
Reports	Correction: Occupant detail report was corrected to print full text of "Notes" field.	4.5.1.105
Manage Graves Standard Mapping	Enhancement: When licensed for Standard Mapping, clicking on "Locate" in "Manage Graves" results in a Google Pin and a callout with the grave location and Occupant(s) Name/s.	4.5.1.105
Manage Graves Tools Tab Mass Edit Tool	Enhancement: Mass Edit Tool now allows for changing ALL Grave Types, Status Types, Date of Status and Purchase Price for a selected range of grave records. Fields can be reset to be blank, if desired.	4.5.1.100
Manage Occupants Tools Tab Change Location Tool	Correction: Change location tool will now default the destination cemetery to the default cemetery if one is set in the cemetery setup workspace.	4.5.1.098
Manage Address Book & Manage Occupants Genealogy View	Enhancement: "Children and Siblings" fields in Genealogy View increased to 500 characters.	4.5.1.097

Manage Occupants General Page	Enhancement: "Date of Birth" field has been added to the General Page, then automatically cascades to the Genealogy "Birth Date" field.	4.5.1.093
Manage Graves List View	Enhancement: Phone, fax, and mobile phone numbers have been added to the available columns that can be displayed in the Owner's grid.	4.5.1.093
Manage Graves: Image / Document Management	Correction: Documents and images were not displayed on a grave after the grave address was changed. The documents and images are now maintained if a grave address is changed.	4.5.1.090
Manage Address Book Service Items	Enhancement: Using hyphens in the grave address can cause confusion about the individual parts of the address when printed/displayed, and can cause the service items feature to not be able to validate a grave address. A new warning has been added when saving/adding a grave if any of the grave address fields contain a hyphen. Rather than using a hyphen, a slash (/) or period (.) may be a better choice. Note: A "Do Not Display Again" checkbox has been added in the warning dialog the lower-left corner so this warning off	4.5.1.090
Reports	Correction: Changed reports to suppress N/A printing in fields with no value.	4.5.1.089
Preferences Graves/Deeds	Corrections: Quick, Advanced Searches and Report Filters in "Manage Graves" will now default to the cemetery which has been checked as "Primary Cemetery" in the Cemetery Setup View.	4.5.1.088
Manage Graves Advanced Search Filter	Enhancement: The Manage Graves Advanced Search for Deed# now performs based on alpha-numeric values and is no longer case-sensitive.	4.5.1.088
Security Report	New Report: When logged in with system administrative rights, a new report is available listing users with their assigned security rights.	4.5.1.079
Manage Graves Standard Mapping	Enhancement: For users with the Basic Mapping Option, after mapping the results of an Advanced Search, the name of the occupant pops up with the location when the mouse is on top of a marker on a search map.	4.5.1.052
Preferences Graves/Deeds	New Feature: A new configuration option has been added to allow the user to define the default status to be assigned to a grave when adding an occupant record. This option is found in Edit Adjust Preferences Graves/Deeds.	4.5.1.051
Preferences Warnings	New Feature: Edit Adjust Preferences Warnings allow the user to select whether an Optional Message should be displayed or not. Warnings can be turned off when the message displays by clicking "do not show again", or in Edit Adjust Preferences on the Warnings page.	4.5.1.022
Cemetery Setup Tools Tab Manage Grave Level Aliases	New Feature: Allows a user to define a different cemetery name (alias) for use on reports and/or GIS mapping.	4.5.1.012
Preferences General	New Feature: Added an option to auto-correct data entry of "Name" fields whether using ALL CAPS or proper case.	4.5.1.010
Manage Graves General Page	New Feature: If licensed for webCemeteries.com services, there are now latitude and longitude fields that may be utilized for locating the grave on a hand-held GPS device.	4.5.1.010
Manage Graves List View	Enhancement: The tool to add/remove columns to the Manage Graves List View now includes "Reserved For" as an option.	4.5.1.006
Manage Occupants General Page	New Feature: Interment number has been added to the "Manage Occupant" work space and the new occupant dialog. This value can be formatted and the next number set by using the occupant preferences or manually typed as alpha-numeric. The interment number prints on the Burial Report and Occupant Detail Report. The interment# can be manually typed.	4.5.1.005
Manage Occupants Genealogy	Change: The "Personal History" link on the Manage Occupants View Tab has been changed to "Genealogy". This is to correctly reflect the information to be recorded in this tool. The tool will still work the same as before.	4.5.1.004
Manage Graves General Page	Enhancement: While adding a "New Occupant Record" from "Manage Graves" the user now has access to "Notes."	4.5.1.004
Standard Mapping - Assigning Grave Location to Maps	Correction: When assigning a coordinate to a map for one record, on save and going to a new record to assign its coordinates, the map will be positioned in the same position as the prior record. This makes assignment easier when the current assignment is physically close to the last assignment when doing several in a row.	4.5.1.002
Preferences User Required Fields	New Feature: Rules for required data fields can be defined in Edit Adjust Preferences User Required Fields. Alerts and Required fields can be color-coded according to user preference.	4.5.1.002
Manage Occupants List View	Enhancement: The tool to add/remove columns to the Manage Occupants List View now includes "Interment Nbr" as an option.	4.5.1.002
File Maintenance	New Feature: File Maintenance Data Optimization Wizard has been included to walk the user through the backup and restore processes through one wizard-guided process. System administrator rights are required to run this tool.	4.5.1.002
General Navigation	Correction: Navigation performance using arrows has been improved for when a user is logged in with "Public" rights.	4.5.0.254
Manage Graves Deed Information	Correction: When assigning a deed number in use, the copy of the deed to the new grave was not including the estimated check box for the date of deed and transfer date. These are now copied from the original deed.	4.5.0.251
Manage Graves	Correction: Shortcut keys have been corrected so Alt-D = Edit and Alt-T = Delete. This will prevent inadvertent deletion of grave records.	4.5.0.246
Manage Occupants Tools Tab Change Location Tool	Correction: The Change Location Tool would not select the correct "Occupant Name" when working from the List View. The tool worked fine from the Detail View. The program has been corrected to properly select the highlighted occupant from the List View when using the "Change Location" tool.	4.5.0.244
Manage Graves Image/Document Management	Correction: The program has been corrected to address issues with graves having copies of images from other records attached to the intended grave. The Save process has been modified to ensure the proper records are being accessed.	4.5.0.244
Manage Graves Deed Information	Correction: When adding a new grave and a new owner at the same time, deed numbers were being skipped when using the auto-increment function. This problem has been identified and fixed. The deed number to be assigned from "Preferences" is now the number assigned by the deed numbering button.	4.5.0.244
Preferences Images	Correction: The imaging module was leaving files where they were when attaching them to specific records if the file has a UNC path rather than a mapped drive on a network. This has been changed so if "copy and rename to network share" is selected, all files are copied to the path designated in Edit Adjust Preferences.	4.5.0.229
Reports	Enhancement: The Grave Detail Report, Contact Detail Report and Occupant Detail Report have all been updated to present more informative and useful reports.	4.5.0.210
Manage Address Book & Manage Occupants Genealogy View	Enhancement: The field for "Place of Birth" (formerly labeled "Birth Place") has been expanded to allow up to 48 characters.	4.5.0.207
